

**AMBER
ALERT**

U.S. Department of Justice (DOJ), Office of Justice Programs (OJP) and
Office of Juvenile Justice and Delinquency Prevention Programs (OJJDP) are pleased to announce:

Advanced Investigative Strategies for Child Abduction Cases

August 18-21, 2015 | Mesa, AZ

Training Description

This training is designed for investigative and supervisory professionals with direct investigative or case management responsibilities and, who have an established foundation and experience in conducting investigations involving abducted, kidnapped, exploited, or murdered children.

The training will focus on legal issues, understanding DNA as an investigative resource, and computer forensics issues in child victimization cases. Additional topics include cell phone and cell tower technologies as they relate to these complex investigations; training on the impact of human trafficking in child exploitation and the use of cold case investigative strategies; as well as methodologies for data mining and Fusion Centers information acquisition as a means of investigative lead development.

Who Should Attend

Attendance is restricted to experienced investigative personnel.
